A long tradition of quality

About Us

Uniline Aust. Ltd is an Australian owned and operated company based in Queensland. We have a long history of providing quality blind fabrics for over a quarter of a century.

Dawn is our flagship blackout with unsurpassed quality.

In our Quality Control department we test each batch of material to ensure that our fabrics meet the highest standards, and it's that dedication to quality that has allowed us to offer the longest fabric warranty in Australia & New Zealand.

Our History

In the early 90s, Dawn was the first Australian blackout blind fabric designed and made in Australia. Like all good inventions, the birth of Dawn was built out of a customer need. Australia is a harsh environment, and there was a need for a long lasting blackout blind that could handle the severe Aussie sun. In the 25+ years since, hundreds of thousands of Dawn blackout blinds across Australia and New Zealand have been installed and it is this experience and trust in our product that allows us to offer the longest fabric warranty in Australia & New Zealand.

If you buy a Dawn blackout blind, you can be assured that it is the very best blackout blind money can buy.
